Monza  Eni Circuit

## TRACK EXPERIENCE

*A touristic speed track lap with our professional drivers on the Italian F1 Grand Prix as passenger on board of a sedan car.*

*Price: € 38.00 per lap (up to 3 people)*

## BIKE TOUR

*The circuit, the F1 track, the High Speed Track and the Monza Park are all exclusive itineraries to visit by bicycle. You can discover the places that have made the Monza Circuit a legendary place. Our professional guides will give you a beautiful experience full of sport, history and nature.*

*Price: € 30.00 / cad.*

*Duration: from 1 to 2 hours*

Monza  Eni Circuit

## DRIVING SIMULATOR

*Feel the emotion of driving a F1 on the most famous track in the world. Try to do your best lap and beat it each time. A flaming red single-seater is waiting for giving you the adrenaline of a virtual lap at 300 km/h.*

*Price: € 15.00*

*Duration: 10 min*

## SAFE DRIVING COURSES

*These courses are thought for who wants to perfection the driving technique and increase the safety behind the wheel.*

*The first part of the course is an explanation of the theoretical elements that are necessary for a correct driving technique. The head of instructors will engage the participants with insights and questionnaires to increase the interest and the attention during the class.*

*The second part of the course is about the practical application of the theory learned in class before. The participant will take part in different tests using the cars made available by the organization. The tests consist in driving on specially equipped tracks in which the participants will be constantly next to a driver-instructor.*

*The third and last part is the final test with evaluation. PBS Team has created a new driving evaluation system with a special test made directly on tracks inserted in the normal city traffic.*

*The activities will end with a final briefing in which the tutor will explain to the participants the errors made during the final test.*

## TRAFFIC EDUCATION LABORATORY

*A ludic-educational project for children who, since they are kids, live and move among the streets of the city.*

*The first part is an insight of the actual knowledge of the participants. The second part that follow is dedicated to a game on a special route. The children will have to understand the different signs, the traffic warden and the drivers that normally we find on the city streets. The role played in turn by the children will be:*

- *Walking in the city: the children will face all the problems related to walking along a special route, such as road markings, vertical signs, traffic lights and traffic rules.*
- *Bike safety: for the ones who already cycle with mum and dad in the city, we teach the correct behaviour, the use of helmets and jackets, bicycles and their efficiency, horizontal and vertical signs, traffic lights, crossings and cycle paths.*
- *Drive safe: the children will have small electric cars to simulate the driver role and understand the basics of the correct behaviour behind the wheel.*

*Price: € 8.00 per children*

## INCENTIVE AND TEAM BUILDING

*Autodromo does not mean only track and motorsport. With INFOPOINT, a lot of other activities are also available in the circuit area and in the beautiful Monza Park, such as:*

- *Guided tours by bike or on foot to discover the main corners of the park with its nature, farmsteads and history.*
- *Sports activities like orienteering, walking or cycling excursions and mountain bike school.*
- *Educational and training activities are different activities for training and cohesion of the group, for mutual knowledge and socialization, the discovery of personal limits through sports and outdoor activities. Safe driving courses for drivers, traffic education and urban biking activities for those who can't drive yet.*
